K-PROFI

8 extraordinary
issues in 2016
for an extraordinary
industry

Effizienz, die Ressourcen schont

Powerplast Porta bereitet PVC-Industrieabfälle zu Regranulat in Neuware-Qualität auf – ohne Abwasser, aber mit einem neuen Schmelzefilter

Recycling, das sich rechnet

Folifilm erfasst seine PE-Folienabfälle, lenkt die Mengenströme, stellt sein Regranulat selbst her – und minimiert so Materialverluste

Flexibilität, die Projekte bringt

Mawick vereint die Auftragsfertigung technischer Teile mit einem Eigenprogramm – und profiliert sich durch Kundenorientierung

Wirtschaftliche Alternative zu Hochleistungs-Thermoplasten: Baumgarten substituiert Großserien-Motortelle beispielsweise mit Phenolharz, und Jan Hirz erkennt eine gewisse Renaissance des Duroplast

NEW!

Including media information of the **official German trade show daily for K 2016** in Düsseldorf. Published daily from 19 until 26 October.

2016

Media Information

Valid 1 January, 2016

Title
K-PROFI

Short profile

K-PROFI helps plastics and rubber processors in high-wage countries to make their production more efficient, save costs and keep abreast of the competition. In order to achieve this, the modern specialist magazine K-PROFI taps into trends from the plastics and rubber market and reports on innovations from the polymer engineering segment so as to provide new ideas, expertise and solutions for plastics processors. K-PROFI features exclusively researched reports from successful plastics processors for new ideas that help readers with their long-term strategies, insights into the practical benefit of trends and useful information that facilitates the decision-making process.

K-PROFI features portraits of companies and staff, reports on production sites and installations, offers profiles of movers and shakers, achievements, skills and strategies. K-PROFI has an objective take on companies and executives, concepts, models, setups and success criteria. Trend reports analyse important developments in the industry and journalists' reports help plastics and rubber processors find out more about interesting suppliers and partners for procurement, mould engineering, production, sales and qualification.

Target group

K-PROFI is a specialist magazine mainly for key executives (managing directors, technical directors, procurement managers) in the plastics processing industry of Germany, Austria and Switzerland. This includes engineers, technicians and sales experts working in executive positions in the plastics and rubber processing industry. KI (Kunststoff Information Verlagsgesellschaft mbH) is responsible for the address management.

Prices

Basic entry per issue: EUR 40.
Each additional line per issue: EUR 8.
Logos are calculated by the line print height.
Key words themselves are not subject to charges.

Minimum duration 1 year with a minimum height of 5 lines per key word

Discounts

For entries:
with 3 key words 5%
with 6 key words 10%
with 9 key words 20%

Invoicing

Invoices are issued on an annual basis, plus VAT, in each case after appearance of the first advertisement of the year, with a page proof from this first issue. The term extends automatically by an additional 12 months if not terminated 6 weeks prior to expiry.

Printing guidelines

The benefit of the list of suppliers and thus your sales success depend to a great extent on a clear structure and layout.

- > Start of advertisement with the company logo or name (in bold print)
- > Uniform typesetting
- > Short and concise key word index
- > One key word only per product
- > Restriction to a great extent to real headings
- > No trade name in the key word

Data

All printing materials must be sent as high-resolution .pdf file (version 1.3, PDF/X-1a:2001) as an email to: produktion@k-profi.de

Design tips

In the case of trim size ads, text, logos and other important elements should be placed at least 4 mm from the edge of the final format.

Proof / Colours

Colour advertisements must be supplied with proof exhibiting a Fogra Media Wedge CMYK 2.0 or 3.0 and a proof or measuring protocol (= certificate) and sent to our production department (K-PROFI, Sigrid Seffner, Luitpoldstr. 5, 91207 Lauf an der Pegnitz, Germany). In case of failure to comply with these guidelines, K-PROFI will not be liable for any colour deviations. If you require our detailed printing guidelines, please send a request to: produktion@k-profi.de

Article 8

The Customer guarantees that he possesses all rights necessary for placing an advertisement. The Customer is responsible for the contents of the ordered publications and for all data provided. The Customer alone is responsible for clarifying all questions regarding trademark rights, copyrights or name rights of the competitors as well as questions regarding the price quotations for premium service hotlines before placing the order. In case service hotlines are published in advertisements, the Customer undertakes to observe the obligation to publish information required in accordance with telecommunication secrecy. It is not allowed to publish banner ads with unlawful or immoral contents; it is particularly not allowed to publish advertisements the contents of which incite racial hatred, glorify or trivialize violence or are sexually offensive in the sense of Art. 131 of the German Criminal Code StGB, or contents that are pornographic, glorify or trivialize war, that are suitable to morally seriously endanger children or adolescents or impair their well-being (Art. 184 StGB), or to make reference to the placed advertisement. The Customer is exclusively liable in case of claims asserted by third parties against the Publisher in connection with the published contents, and shall hold the Publisher harmless against all claims from third parties in this respect.

Article 9

The Customer is responsible for the timely delivery of the text of the advertisement and the correct advertising copy or the supplements, etc. The Publisher shall immediately request replacement for obviously unsuitable or damaged documents. The Publisher guarantees the printing quality customary for the ordered publication within the framework of the possibilities available due to the advertising copy.

Article 10

In case of completely or partially illegible, incorrect or incomplete printing of the advertisement the Customer is entitled to claim a flawless replacement ad, however, only to the extent to which the purpose of the advertisement was impaired. If the Publisher fails to perform within an appropriate time period set to this end, or if the replacement ad is clearly not flawless again, the Customer shall be entitled to a price reduction or a cancellation of the order. Complaints have to be made within four weeks upon receipt of the invoice and the confirmation copy – except in cases of non-obvious deficiencies.

Claims for damages of the Customer against the Publisher shall be excluded regardless of the legal basis, particularly due to delay, the violation of contractual obligations, the infringement of third party's proprietary rights and tortious act, unless the Publisher, its representatives or vicarious agents acted intentionally or grossly negligently or slightly negligently violated a contractual obligation that is essential for achieving the purpose of the contract, or in case the claims for damages arise because of a guarantee as to quality. To the extent that the Publisher is liable on the merits, the claim for damages shall be limited to the foreseeable damage. This limitation of liability shall not apply in case of intent or if the occurrence causing the damage was caused through gross negligence on the part of the Publisher, its representatives or vicarious agents. All claims for damages against the Publisher shall become statute-barred after 12 months following the point in time, at which the Customer learnt or should have learnt about the circumstances founding the claim. This shall not apply for claims based on tortious or intentional acts. If the claims for damages are based on the product liability act, the above limitation of liability shall not apply. The same is true in case of injury to life, limb or health.

To the extent that the Publisher's liability is excluded, this shall also apply for the personal liability of its staff members, employees, representatives and vicarious agents. In cases of force majeure and industrial action beyond the Publisher's reach, the Publisher shall be exempted from the obligation to fulfil the order; claims for damages do not arise in such cases.

Article 11

Press-proofs shall only be provided upon express request. The Customer is responsible for the correctness of the returned press-proofs. The Publisher shall take into account all corrections that are communicated within the deadline specified when forwarding the press-proofs.

Article 12

If no specific formats are provided, the price of the advertisement will be calculated on the basis of the actual printed height customary for the respective kind of advertisement.

Article 13

In case the Customer does not effect an advance payment, the invoice shall be submitted immediately, however, if possible 14 days upon publication of the advertisement. The invoice shall than be payable within the deadline specified in the price

General Terms and Conditions**for Advertisements and Third Party Supplements in Newspapers and Magazines (K-PROFI)****Article 1**

"Advertising Order" in the sense of these general terms and conditions shall mean the contract regarding the publication of one or several advertisements or third party supplements (supplements, inserts or other advertising material) of an advertiser or any other person placing advertisements in a printed matter for the purpose of distribution.

Article 2

The Publisher shall execute Advertisement Orders exclusively under the instant terms and conditions. Terms and conditions of the Customer deviating from the instant terms and conditions do not apply. Counter-confirmations with reference to the Customer's own terms and conditions of sale or purchase are herewith explicitly rejected. Subject to individual agreements concluded to the contrary, the contract shall take effect upon the order confirmation on the part of the Publisher made in writing or via e-mail. If such order confirmation is omitted, the publication of the advertising means shall be deemed as confirmation of the order.

Article 3

In case of doubt, advertisements have to be retrieved for publication within one year upon the conclusion of the contract. If in the framework of such conclusion of contract a right for retrieving individual advertisements is granted, the order has to be completed within twelve months following the publication of the first advertisements, given that the first advertisement was retrieved and published within the deadline specified in sentence 1 of this Article.

Article 4

If an order is not executed for reasons that are beyond the Publisher's reach, the Customer shall have to reimburse to the Publisher the difference between the granted discount and the discount corresponding to the actual acceptance without prejudice for any other legal obligations. Such reimbursement does not apply if the non-compliance is based on cases of force majeure within the Publisher's risk area.

Article 5

Advertising Orders that are to be published exclusively in certain issues or in certain places in the printed matter have to be received by the Publisher in due course, so that the Customer can be informed before the advertisement deadline if the order is not executable in the respective manner. Classified advertisements are published in the respective category without the necessity of an express agreement in this respect.

Article 6

Advertisements that are not recognizable as such due to the editorial design shall be clearly marked by the Publisher by adding the word "Advertisement".

Article 7

The Publisher reserves the right to refuse Advertising Orders – or individual retrievals within the framework of a contract – in accordance with the Publisher's uniform, objectively justified principles because of its content, its origin or its technical form, if such content violates laws or official regulations, or if the publication of such advertisements cannot be reasonably expected of the Publisher. This shall also apply for orders that are placed with branch offices, receiving offices or agents.

Orders involving supplements, inserts or advertising material shall be binding for the Publisher only upon submission of a sample and the approval thereof. In case these samples evoke the impression among the readers that they are an integral part of the newspapers or the magazine due to their format or design, or if they contain third party advertisements, they will not be accepted. The Customer shall immediately be notified about such refusal of an order.

list, which deadline starts with the receipt of the invoice, unless in the individual case a different term of payment or an advance payment has been agreed upon. Possible discounts for early payments are granted in accordance with the price list.

Article 14

In case of default or deferral, interest as well as collection costs are billed. The Publisher may choose to postpone the further execution of the respectively pending order until payment was effected and to request that the remaining advertisements are paid for in advance.

In case of reasonable doubt in the Customer's solvency, the Publisher shall be entitled to make the publication of further advertisements subject to the prepayment of the amount and the settlement of still open invoiced amounts also during the term of an advertising contract, irrespective of the originally agreed term of payment.

Article 15

Upon request, the Publisher delivers a copy of the advertisement along with the invoice. Depending on the kind and scope of the Advertising Order, advertisement cuttings, sample pages or full document numbers are submitted. If documentary evidence cannot be submitted, it shall be replaced by a legally binding confirmation of the Publisher pursuant to which the advertisement was indeed published and distributed.

Article 16

Costs for the preparation of ordered advertising copies as well as costs for modifications of originally agreed versions requested or caused by the Customer shall be borne by the Customer.

Article 17

In case of a contract for several advertisements the claim for a price reduction due to a decrease in circulation can only be derived, if in the total average of the insertion year starting with the first advertisement the average circulation figures specified in the price list or elsewhere, or – if no circulation figures are specified – the average circulation that was actually distributed in the past calendar year is not reached. A decrease in circulation shall constitute a deficiency entailing the claim for a price reduction only if it is more than 20 per cent in case of circulation figures of up to 50,000 copies, or more than 15 per cent in case of circulation figures of more than 50,000 copies, respectively.

Any further claims for price reductions for such contracts shall be excluded, if the Publisher has informed the Customer about the decrease in circulation figures at such an early point in time that the Customer could have cancelled the contract before the publication of the advertisement.

Article 18

In case of box number advertisements, the Publisher shall apply the care of a diligent businessman regarding the safekeeping and due forwarding of the offers. Registered letters and express letters replying to box number advertisements shall only be forwarded by ordinary mail. The mail received in reply to box number advertisements will be kept for four weeks. Letters that are not collected within said deadline will be destroyed. The Publisher shall return valuable documents without being obliged to do so. The Publisher may be granted the right as agent within the framework of individual contracts to open the received offers instead of the Customer and in the Customer's declared interest. Letters exceeding the admitted DIN A4 format (weight 500 g) as well as consignments, book posts, catalogues and parcels shall be exempted from such forwarding and are not accepted. However, a receipt or forwarding of such items can be agreed upon in exceptional cases, if and when the Customer takes over the fees/expenses incurring in this respect.

Article 19

Advertising copies shall be returned to the Customer only upon special request. The obligation to retain documents shall end upon three months after the expiration of the order.

Article 20

Place of performance and legal venue for all disputes arising out of the concluded contract shall be the Publisher's place of business (Bad Homburg), if the Customer is a merchant. This does also apply if the Customer does not have a general place of jurisdiction in the country or if the Customer's place of residence is unknown or abroad.

Article 21

In case one or several of the above provisions be or become invalid, this shall not affect the validity of the remaining provisions. The invalid provision shall be replaced by statutory provisions, unless the parties reach an agreement that fulfils the purpose originally intended by the invalid provision.

K-AKTUELL, the exclusive and official German trade show daily for K 2016 in Düsseldorf, features daily news reports - from 19 until 26 October 2016.

Title K-AKTUELL

Short profile

K-AKTUELL is the exclusive and official German trade show daily for K 2016 – International Trade Show for the Plastics and Rubber Industry, which will take place from 19 until 26 October 2016 in Düsseldorf/Germany. K-AKTUELL features daily news and photo footage for visitors of K 2016, reports and product launches at the trade show, exhibitor events and any other interesting activities. Service information will help to navigate the exhibition grounds and provide updates on special attractions and events. K-AKTUELL will reach all visitors thanks to an exclusive, active distribution on all entrances. Exhibitors will receive K-AKTUELL directly at their stand. Moreover, K-AKTUELL will be distributed in hotels in Düsseldorf and Neuss on a daily basis.

Target group

K-AKTUELL targets German-speaking visitors and exhibitors at K 2016 – International Trade Show for the Plastics and Rubber Industry in Düsseldorf, who wish to keep in touch with the exhibitors' activities and services and wish to receive daily news about the activities at the international flagship fair.

Publication frequency

8 issues in total, daily on 19, 20, 21, 22, 23, 24, 25 and 26 October 2016.
